## Patient Insurance Information

OB-GYN Associates, P.A. complies with insurance coding guidelines from the American Medical Association (AMA). At your visit today, your physician will provide a medical service and will submit codes to your insurance company according to the guidelines mandated by the AMA. We wish to share with you the difference between an “Annual Exam” and “Problem Visit”.

***Please understand it is our goal to give you the best medical care as well as making you aware of insurance guidelines with which we are also responsible.***

### **Annual Exam: (Well Woman Visit)**

- An annual exam is preventive annual care without any medical problem (pap smear, etc.).
- Some insurance companies **do not** require a co-pay for an annual.
- In general, if you are in need of a prescription for a medical problem or issue, this is considered by your insurance company and the AMA to be a “problem visit” and your visit is not an annual exam.
- If a problem such as a breast lump is found at your “Annual Exam”, the exam is no longer considered by the AMA as an annual exam. Both of these are problem visits and will be coded accordingly.

### **Problem Visit:**

- If you are having any problems that you need to address with your doctor during the visit, please feel free to do so. However, your visit must be coded as a “problem visit” and it is no longer considered an annual exam. All codes and diagnosis are generated by your physician at the time of service in accordance with national standards set by the AMA. Most insurance companies **do** require a co-pay for this visit.
- If you are in need of a prescription for a medical problem or issue, this is considered by your insurance company to be a “problem visit” and is not an annual exam.
